PUBLIC NOTICE

REGARDING THE DECISION TO APPROVE A MODIFICATION TO THE
BURLINGTON ENVIRONMENTAL INC. PIER-91 FACILITY'S
HAZARDOUS WASTE MANAGEMENT RCRA PART B PERMIT

The Washington State Department of Ecology (Ecology) is informing the public of the final determination approving a modification to the RCRA Part B Operating Permit for the Burlington Environmental Inc. (Burlington) Pier-91 facility. Burlington has met the requirements of the Washington State and Federal regulations regarding this modification. The requirements are listed in WAC 173-303-830(4) and 40 CFR Part 740.42.

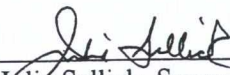

The facility is operated by Burlington (dba Philip Environmental) and is located at:

2001 West Garfield Street
Pier 91, Port of Seattle
Seattle, WA 98119

EPA/State ID#: WAD000812917

The modification makes changes to the facility's final status closure plan to reflect the existing conditions. The facility is in the process of final facility closure under the requirements of the permit and Washington State regulations WAC 173-303-610. Ecology is approving the modified final status closure plan for implementation. Corrective Action of any contamination associated with the facility will continue at the site even after the operating facility completes closure. At this time, Burlington has ceased operations at the facility and is no longer a tenant of the Port of Seattle.

No public comments were received at the public meeting on September 10, 1996 or during the public comment period which ended on October 22, 1996. The approved permit modification, Part B Permit and associated closure plan is available for public review at the Department of Ecology, Northwest Regional Office. Persons with questions may telephone Galen Tritt at (206) 649-7280.
